

Simply get rid  
of facial redness, FAST

**ROSACURE®+**

Anti-redness cream formulated  
for rosacea-prone skin

#### THE PROBLEM:

- Do you flush or blush frequently?
- Do you suffer from redness after drinking wine?
- Do you avoid your favorite spicy meal?
- Do you suffer easily from sunburn or windburn?

Facial redness is often caused by rosacea (pronounced roh-ZAY-sha). Many individuals are not aware that they may have this common but little-known disorder, and they may feel a sense of embarrassment due to their facial redness.

#### THE SOLUTION:

**ROSACURE®+**

The one face cream that works **FAST** to reduce the redness of rosacea

**ROSACURE+** has a unique patented formula with powerful antioxidant/anti-aging ingredients coupled with highly effective moisturizers that help reduce facial redness.

**Methylsulfonylmethane (MSM):** A sulfur compound that occurs naturally in the human body as well as in some common foods (ex. meat, fish, dairy products, fruits and vegetables). It is used in the treatment of inflammatory conditions.

**Silymarin:** A herbal remedy that has been used for over 2,000 years, silymarin is an extract from the seeds of the plant silybum marianum, also called milk thistle. Silymarin is an antioxidant.

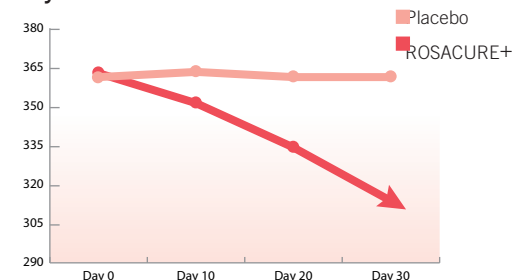

**FAST ACTING FORMULA...  
RESULTS APPEAR IN  
2 TO 3 WEEKS**

#### SEE THE RESULTS:

Ideal for all skin types, ROSACURE+ has been clinically proven to reduce facial redness over a period of 2-3 weeks, when used twice daily.

Erythema Index Value\*

\*Randomized double blind study comparing Rosacure+ and a placebo on a split-face design in rosacea. Data on file.

The combination of MSM and silymarin exerts a synergistic effect in reducing the appearance of facial redness.

**ROSACURE®+**

- Fragrance free
- Non-comedogenic
- Alcohol free

Available without a prescription, ROSACURE+ can be used alone or in combination with current therapies (metronidazole, oral antibiotics). Apply sparingly twice daily.
